

## EMN Meeting on Photonics 2017

Dear colleague,

It is our great pleasure to announce the *EMN Meeting on Photonics 2017 which will take place in Budapest, Hungary from September 4th to 8th, 2017*. The EMN meeting began in 2008 as a small workshop held at a traditional villa in Orlando, Florida. Since then it has grown steady and become a global event on the general theme of Energy, Material and Nanotechnology.

To continue its success of last events at Barcelona, Spain, 2016, EMN Meeting on Photonics 2017 aims to be a unique platform for leading scientists, researchers, scholars and engineers from academia, R&D laboratories and industry around the world to exchange, share and learn the most recent advancement on various aspects related to Photonics.

We invite all members of the international scientific community interested in new developments related to Photonics to attend and to submit their latest findings to EMN Photonics 2017. The conference will provide a range of **oral** and **poster** presentations and **invited** talks.

Selected (after peer-review) papers from the conference will be published in various ISI and Scopus indexed journals (Nanoscale Research Letters, Journal of Semiconductors.) Only one paper per registered participant will be published.

We cordially invite you to attend the conference, actively participate in its technical sessions, and contribute to the continued success of this conference series. Up-to-date information on all aspects of the conference will appear soon on the conference webpage: <http://emnmeeting.org/Europe/photonics/>.

The site of this conference is Budapest, which often described as the “Little Paris of Middle Europe”. Budapest has a lot to offer. Museums and galleries, churches and synagogues, palaces and historic buildings, baths and pools are presented together with the influence of Secession in the city. There is an unmistakable feeling that something out of the ordinary is just around the corner, but what it will be is up to you to find out...On behalf of the EMN organizers, we look forward to seeing you in Budapest and to join an exciting and enjoyable conference. The conference will cover the following topics (Conference topics):

- Chalcogenide Photonics
- Electro-optic and Opto-electronic Devices
- Functional Nitrides for Lighting Applications
- Graphene Photonics
- Laser Processing of Functional Nanomaterials
- Light-Matter Interaction
- Material Development for Photonics
- Mid-infrared Photonics
- Novel Photonic Devices

- Novel trends in magneto-photonics
- Organic Photonics
- Photonic Communications
- Photonics for Sensing
- Silicon Photonics
- General

Abstract submission already opened (<http://emnmeeting.org/Europe/photonics/important-dates/> ). Please spread this information among your colleagues. If you require any other information (conference venue, accommodation, onsite registration), do not hesitate to contact the Conference Secretariat at the following e-mail address: [Photonics@emnmeeting.org](mailto:Photonics@emnmeeting.org). or visit the website <http://emnmeeting.org/Europe/photonics/> (abstract submission, proceedings publication, preliminary registration).

We are looking forward to meeting you in Budapest!

Kind regards,  
Conference Committees
